David Haferman was the Student Council President and our Student Council Representatives were Harlan Broers, Bob Diggelman, and Darryl Monge.

One of the first things in the fall was the National Scholarship Test. Nine of our students participated in this under the direction of Mr. Nyberg.

The various events that kept us busy throughout the year were our all-school party, working on the year book, and trying to increase the amount in our treasury so that we could take a class trip. Our money-making projects consisted of a car wash, corn pick-up, spaghetti supper, bake sale, and the cake raffle and sale of pop corn at the basketball games.

We also had our senior pictures taken, and ordered caps and gowns and announcements.

We choose the following:
Motto: The learners of today are the leaders of tomorrow.
Color: Lilac and white
Flower: Lilac

We went to Kirkwood Lodge in the Ozarks on our class trip from May 23-25. We returned home a tired but happy group. Our baccalaureate exercise was on May 26th and our graduation was May 28th. Everyone was excited and a little sad, but we all wanted to depart; each on a separate path to seek what was in store for the future. Wherever these paths may lead, we will always have many memories of our days in Roanoke-Benson High School.

adding up *your future*

Mistake in arithmetic? NO. This is a formula showing the financial benefits of a college education based on today's salaries. It shows simply that for an investment of $2000 per year* and 4 years of your time you may net about $103,000 more in your lifetime than the man whose formal education stops at high school.

The typical high school graduate will earn $165,000 in his lifetime compared to the typical college graduate who will earn $268,000. These are average figures, and, of course, you can do much better, or much worse. Yet it points out one way you can help assure yourself of $3000 a year more than you could have earned otherwise.

This extra income can mean a better home for you . . . a complete education for your children . . . a full and more rewarding life for you and your family.

Other rewards a college education can help you achieve may be even more significant than a higher income: a deeper understanding of people . . . a greater ability to get along well with others . . . a fuller life, to mention but a few.

When you add up the years of your learning, remember that you are adding up your future. And education is an investment in the future which will return to you many advantages.

**Estimated average cost of attending college including tuition, room and board, books, and incidental expenses.*
